BIGG Tip: Want a Simple Way to manage Your Energy Level? - Sit up straight! Computer work leads to poor posture: curved back, slumped shoulders, and legs crossed. Dr. Mladen Golubic with Cleveland Clinic's Wellness Institute says when you sit away from the back of your chair, with shoulders rolled back, spine erect, and feet planted firmly on the ground, your chest expands so you take larger breaths. The result? Higher energy and BIGG success! Get more tips from BIGG Success [here](#).
